Download on the App Store or you can try Omegle's mobile Web site!

Omegle is a great way for you to meet new friends. When you use Omegle, we pick another user at random and let you have a one-on-one chat with each other. Chats are completely anonymous unless you choose to mention personal details, and you can disconnect whenever you like.

If you add your interests, Omegle will try to find someone who is into some of the same things as you, instead of giving you a completely random chat partner.

Meet strangers with common interests!
