

Unit 1: Study Task

Theories of Intellectual Development

Research and create a PowerPoint of information that explains...

Piaget's model to include:

- how children's logic and reasoning develops
- stages of cognitive development
- the development of schemas
- his tests of conservation
- Egocentrism
- how his model may explain children's thoughts and actions

OR

Chomsky's model to include:

- how children acquire language – Language Acquisition Device (LAD)
- the concept of a critical period during which children may learn language, which may explain how children seem to instinctively gain language.
