BTEC IT

Summer Research Task

Task 1
Started within the lesson but the task needs to be written up fully

1. Research three different social media platforms and identify the demographic for each. Evidence should be provided in a word processed document and include some comparative analysis of the demographics
2. Prepare a posting schedule for CCHS Open Evening, with students justifying the time and type of posts they have selected

Task 2

Research the following terms and write a definition

- Database
- RDMS
- Flat file database
- Entity
- Table
- Data types
- ERD
- Attribute
- Cardinal
- Tuple
- Degree
- Relation
- Keys – PK, FK

Once you have definitions written for each write a paragraph which explains how a database works using the definitions you have research and making the links between the key words.
