

Child Development

Level 3

Summer Task

You are working as an Early Years Practitioner and have been asked to prepare a presentation to explain factors affecting children's development.

- Identify the potential effects of a range of **biological** factors on a child's holistic development
- Identify the potential effects of a range of **environmental** factors on a child's holistic development

Remember that effects may be positive as well as negative.

If you require any support with this, please email e.hale@cannockchase-high.staffs.sch.uk. (prior to the summer holidays)

The deadline for this is your first child development lesson in September.
